## SUMMARY

- As a junior software developer, I am seeking employment with a company that can utilize my coding skills in Java (Android Studio). I have experience in developing and testing applications on this platform, and am eager to apply my knowledge and skills to contribute to the success of a company. Additionally, I am well-versed in testing methodologies, including using Selenium and JUnit for testing webpages. I am able to identify and resolve issues in a timely and efficient manner. With my strong coding and testing abilities, I am confident in my ability to make valuable contributions to any team.

## EDUCATION

- Bachelor of Science in IT, IBU, Sarajevo (2020 – 2024\*)
- High School, SS "Cetvrta gimnazija", Ilidza, (2016 – 2020)

## EXPERIENCE

- Summer Internship at KV Team d.o.o. (July – August 2022)
  - My task was to make a successful application using Android Studio and Java as a programming language. I successfully did my part in that.
- Arduino Project (making a thermometer)
- Testing Project (testing eBay page)
- C Project (making a TicTacToe game)
- Rust project (making a 4-in a row game)
- Android Project (making a rent app)
