SUMMARY

- As a BA Engineer in Information Technologies, I am seeking employment with a company where I can apply my skills in web app development. I have experience in creating and testing web apps, with strong proficiency in MySQL, HTML, PHP and JS. Additionally, I am well-versed in testing methodologies, particularly using Selenium for testing webpages. While I worked on mobile development, my primary focus has been on web development. With my solid coding and testing abilities, I am confident in my ability to make valuable contributions to any team.

EDUCATION

- BA Engineer in Information Technologies, IBU, Sarajevo (2020 – 2024)
- High School, SS "Cetvrta gimnazija", Ilidza, (2016 – 2020)

EXPERIENCE

- Summer Internship at KV Team d.o.o. (July – August 2022)
  - My task was to make a successful application using Android Studio and Java as a programming language. I successfully did my part in that.
- Senior Design Project (making a mobile App using AI)
- Testing Project (testing eBay page)
- Web Project (making a FullStack Web App)
- SSSD Project (making a secure FullStack Web App)
- UI/UX Design Project (making a Frontend Web App)
